

## Exhibit 3

212/688US

The screenshot shows a Windows XP desktop environment. At the top, there are several open browser windows displaying various web pages related to security research and Java exploits. Below the browser windows, a Windows Explorer window is active, displaying a directory tree on the left and a detailed view of files and folders on the right.

The left pane shows a folder structure starting with 'D:\', followed by 'S...' (likely 'Scripts') and 'W...' (likely 'Work'). Under 'S...', there are two subfolders: 'OPPUseV1\_April\_2001' and 'OPPUseV2\_Dec\_2001'. Under 'W...', there are several files and folders, including 'A Distributed Fingerprint Matching Algorithm.doc', 'Authentication Proc on RCP Platform\_10April.doc', 'EvotJavaCard description.doc', and 'Smartcard Seet6L.doc'.

The right pane displays a list of files and folders with the following columns: Name, Typ, Größe, and Änderungsdatum. The files listed include:
